Maple Valley, WA – March 20, 2019.

Eagle Fiber Laser, a leading provider of flat-stock fiber lasers in Europe, names Fairmont Machinery as the U.S. master distributor. Fairmont Machinery, headquartered near Seattle and with east coast office in near NY City, is responsible for sales, service, and parts, ensuring Eagle customers will get local, highly-trained support.

“We are very pleased to carry the finest fiber laser in the world. The Eagle performance, with 6G acceleration, up to 15kW of power, and 9 second pallet exchange, is the most productive available, and U.S. manufacturers deserve the opportunity to access this amazing technology,” said Chip Burnham, CEO and co-founder of Fairmont Machinery.

“We knew at Eagle the only way to give U.S. customers the same high level of support our European customers experience is to find the right local partner,” said Ivan Melicher, Commercial Director for Eagle Laser. “Fairmont Machinery’s vast experience in the U.S. market as well as their proven success leading sales, service, and aftermarket organizations is the ideal way to give our customers world-class support.”
