

# 3YO<sup>TS</sup> | SLAT JUICE

## Quick Start Guide

**APPLICATION  
INSTRUCTIONS**

First time application should be on new unused slats.

- 1 Shake product thoroughly
- 2 Verify the nozzle is in the horizontal position and set the flow switch to the middle (photo A)
- 3 The container holds .26 gallons (1,000 ml). Fill with the appropriate amount of slat juice for your table size and attach the container to the gun (photo B)

*A 5ft x10ft table should use 0.1 gallons (320 ml) of  
3YO Slat Juice*

*A 6.5ft x 13ft table should use 0.15 gallons (560 ml) of  
3YO Slat Juice*

**DO NOT OVERSPRAY IT ONLY TAKES A LITTLE BIT.**

- 4 Spray a light mist until the slats change color
- 5 Spray walking down the table and then turn and repeat to get the other side of the slats
- 6 Do a Second Pass with the nozzle set in the vertical position to get the top of the slats (photo C)
